Precision Trade Manager — Comprehensive Terms, Conditions & Legal Disclaimers

1. General Terms & Conditions

1.1 Introduction and Acceptance

Welcome to **Precision Trade Manager** ("Software", "Tool", "We", or "Company"). By purchasing, downloading, installing, activating, or using any Expert Advisors (EAs), indicators, scripts, or digital services related to MetaTrader 4 (MT4) and MetaTrader 5 (MT5), you ("User", "Customer", or "Licensee") explicitly agree to comply with and be bound by these comprehensive terms and conditions. If you disagree with any part of these terms, you must immediately cease use of the software and remove all files from your systems.
This agreement constitutes a binding legal contract between you and the developers of Precision Trade Manager. We reserve the right to modify, update, or revise these terms at any time without prior individual notice.

1.2 Nature of the Software

Precision Trade Manager is an advanced risk management and trade execution utility designed exclusively to run within the MetaTrader terminal environment. The software handles volume calculations, order scaling, and position monitoring based entirely on parameters configured by the user. **This software is strictly NOT a signal provider, account management service, financial advisory tool, or a guaranteed profit generator.**

1.3 Eligibility

Users must be at least 18 years of age and possess full legal capacity to enter into binding agreements. All information provided during the purchase and license activation process must be accurate, current, and complete.

---

2. Risk Disclaimer & No Investment Advice

2.1 Absolute Prohibition of Investment Advice

CRITICAL NOTICE: PRECISION TRADE MANAGER DOES NOT PROVIDE INVESTMENT, FINANCIAL, LEGAL, OR TAX ADVICE. The software is an automated and manual technical tool designed purely for execution and risk management assistance. Under no circumstances should any feature, output, dashboard calculation, or default parameter of the software be interpreted as a solicitation, recommendation, or endorsement to buy, sell, or hold any financial instrument, currency pair, gold (XAUUSD), cryptocurrency, or derivative contract.

2.2 High Risk Warning

Trading in financial markets—including Forex, CFDs, Gold (XAUUSD), Cryptocurrencies, Futures, and other leveraged instruments—carries an extremely high level of risk and is entirely unsuited for many investors. The high degree of leverage available in retail and institutional trading can work against you as well as for you, potentially leading to the rapid, total loss of your entire invested capital and any additional margin deposited.

2.3 Past Performance

Past performance, backtesting results, historical simulations, strategy tester reports, and user testimonials featured on our website or marketing channels are **in no way indicative of future results**. Market conditions continuously fluctuate due to unpredictable macroeconomic shifts, geopolitical events, central bank interventions, and liquidity crises.

2.4 User Responsibilities

By utilizing Precision Trade Manager, users explicitly acknowledge and agree that:

- They possess full comprehension of financial market mechanics, margin requirements, and leverage risks.
- They bear 100% personal responsibility for all orders placed, managed, modified, or closed via the software.
- They are strongly advised to thoroughly test all configurations, parameters, and risk settings on a demo (simulated) account prior to deploying them on live accounts with real funds.
- Live market conditions frequently introduce slippage, requotes, execution delays, wider spreads, broker disconnects, and unexpected financial losses that lie completely outside the software's control.

---

3. Privacy Policy, Data Retention & Data Deletion (GDPR Compliant)

3.1 Privacy Commitment

We respect your privacy and are committed to protecting your personal data in strict compliance with the General Data Protection Regulation (GDPR) of the European Union and international privacy standards.

3.2 Collected Information & Automatic License Verification

To process purchases, activate MetaTrader licenses, deliver technical support, and ensure security, we collect the following data:

- **Identity & Contact Data:** Name, email address, billing details, and crypto transaction

hashes.
- **Technical & License Data:** MetaTrader account numbers (hashed for maximum security), hardware IDs, and IP addresses.

*Note: We NEVER have access to your broker account passwords, private funds, or live trading capital. Furthermore, the software incorporates an **Automatic License Verification** mechanism that may periodically connect to our secure activation servers to validate license status, expiration dates, and authorized account arrays. If verification fails or a license is revoked, the software functionality will automatically cease.*

3.3 Data Retention & Data Deletion

We retain user personal data and transaction logs only for as long as necessary to fulfill the purposes outlined in this agreement, comply with legal obligations, resolve disputes, and enforce our agreements. Customers have the right to request complete erasure of their personal information and license logs from our active databases by submitting a formal written request to our support desk, noting that data deletion will permanently terminate access to future software updates and license reactivations.

---

4. Refund Policy

4.1 Nature of Digital Goods

Precision Trade Manager is a digitally distributed software product (compiled .ex4 and .ex5 files). Once a license key is issued and activated, the digital product is deemed fully delivered and consumed. Due to the intellectual property nature of our software, our strict policy is **NO REFUNDS** after license activation.

4.2 Finality of Sales

Because digital source files, compiled binaries, and cryptographic licenses cannot be physically returned or revoked without leaving residual access, all sales are final, and no refunds or chargebacks will be granted once the license key is delivered and activated.

---

5. End User License Agreement (EULA) & License Termination

5.1 Grant of License

Subject to full compliance with these terms, Precision Trade Manager grants you a limited, non-exclusive, non-transferable, revocable license to install and execute the software on MetaTrader terminals linked to your authorized license key and account numbers.

5.2 License Tiers

- **Standard:** Up to 2 Live / 2 Demo accounts (Non-transferable; strictly for individual use).
- **Pro:** Up to 5 Live / Unlimited Demo accounts (Non-transferable; ideal for independent and prop firm traders).
- **Enterprise:** Custom / Negotiable agreements tailored for corporate groups and syndicates.

5.3 Strict License Termination Conditions

Your license to use the software will terminate automatically and immediately without notice if you fail to comply with any provision of this EULA. Specifically, license termination will be enforced immediately if:

- Any attempt is made to reverse engineer, decompile, disassemble, or crack the compiled .ex4 or .ex5 binaries.
- The software, license key, or account array is unauthorizedly shared, resold, rented, or distributed across public or private websites, Telegram channels, Discord servers, or torrent networks.
- The user tampers with or bypasses the Automatic License Verification or internal expiration routines.

Upon termination, you must immediately destroy all copies of the software in your possession.

---

6. Acceptable Use Policy

You agree to use the software solely for lawful commercial and personal risk management objectives. Any unauthorized tampering, hacking, or distribution violates federal and international intellectual property laws and will result in immediate license termination and aggressive legal prosecution.

---

7. Cryptocurrency Payment & Tax Responsibility

7.1 Cryptocurrency Transactions

We accept alternative cryptocurrency payments including **Bitcoin (BTC)** and Tether (USDT - TRC20 and ERC20 networks). Because blockchain transactions are irreversible, users are solely responsible for sending exact amounts and correct network fees. Underpaid transactions will remain pending until fully settled on-chain.

7.2 Tax Responsibility

You are solely responsible for determining, paying, reporting, filing, and remitting all applicable local, state, federal, or international taxes, duties, Value Added Tax (VAT), or goods and services taxes (GST) associated with your purchase and use of the software.

8. Limitation of Liability, Indemnification & Force Majeure

8.1 Strict Limitation of Liability

To the maximum extent permitted by applicable law, in no event shall Precision Trade Manager, its developers, officers, employees, or affiliates be liable for any indirect, incidental, special, consequential, punitive, or exemplary damages, including but not limited to damages for loss of profits, trading capital, goodwill, data, or other intangible losses arising out of or relating to the use or inability to use the software. **In any and all circumstances, the entire aggregate liability of Precision Trade Manager and its creators to you for all claims arising from or related to the software shall be strictly limited to the total monetary amount actually paid by you to us for the software license in the preceding six months.**

8.2 Indemnification

You agree to defend, indemnify, and hold harmless Precision Trade Manager, its developers, affiliates, and licensors from and against any and all claims, damages, obligations, losses, liabilities, costs, debt, and expenses (including attorney's fees) arising from: (a) your use of and access to the software; (b) your violation of any term of these conditions; (c) your violation of any third-party right, including without limitation any copyright, property, or privacy right; or (d) any legal action or regulatory inquiry resulting from your financial trading activities.

8.3 Force Majeure

We shall not be held liable for any failure, delay, or disruption in performance resulting directly or indirectly from acts of God, natural disasters, epidemics, pandemic restrictions, power failures, Internet disruptions, telecommunication grid failures, cyberattacks, distributed denial-of-service (DDoS) attacks, governmental restrictions, trade sanctions, embargos, civil unrest, war, terrorism, or any other causes beyond our reasonable control.

9. Export Control, Sanctions & Class Action Waiver

9.1 Export Control & Sanctions

The software and related technology are subject to international export control and economic sanctions laws. You represent and warrant that you are not located in, under the control of, or a national or resident of any embargoed country or territory, and that you are not named on any denied party or blocked persons list maintained by major international regulatory bodies. Any sale or activation attempted in violation of these trade restrictions is strictly void.

9.2 Class Action Waiver

You agree that any arbitration or legal proceeding shall be limited to the dispute between us and you individually. To the full extent permitted by law, (a) no arbitration or proceeding shall be joined with any other; (b) there is no right or authority for any dispute to be arbitrated or resolved on a class-action basis or to utilize class action procedures; and (c) there is no right or authority for any dispute to be brought in a purported representative capacity on behalf of the general public or any other persons.

---

10. Dispute Resolution, Arbitration & Governing Law

10.1 Governing Law

These terms and conditions, and any dispute or claim arising out of or connected with them, shall be governed by and construed in accordance with the laws of international digital commerce and applicable arbitration jurisdictions, without giving effect to any choice of law principles.

10.2 Mandatory Arbitration

Any dispute, controversy, or claim arising out of or relating to this contract, including its formation, interpretation, breach, or termination, shall be settled exclusively by binding confidential arbitration administered by an independent commercial arbitration center, rather than in court. The place of arbitration shall be conducted remotely or within a designated neutral international arbitration venue.

---

11. Miscellaneous: Severability & Entire Agreement

11.1 Severability

If any provision of these terms is found to be invalid, illegal, or unenforceable by an arbitrator or court of competent jurisdiction, such provision shall be modified to the minimum extent necessary to make it valid and enforceable, and the remaining provisions of these terms shall remain in full force and effect.

11.2 Entire Agreement

These comprehensive terms, conditions, and disclaimers constitute the entire and exclusive agreement between you and Precision Trade Manager concerning the software, superseding and replacing any prior agreements, proposals, communications, or understandings, whether oral or written.

By purchasing, downloading, installing, or activating Precision Trade Manager, you explicitly *confirm that you have thoroughly read, understood, and agreed to all sections of this binding legal agreement.*
